

Please Help! **Katrina Survivors** **Sanctuary**

a project of the
Humane Society of Louisiana

HSL mobilized a grassroots rescue effort after Katrina, sheltering 1750 pet victims of the hurricane in the first 6 months following the storm. More than 100 of these animals could not be reunited with their families, and they have so far been unable to be placed in new homes due to health, age or behavioral issues.

*HSL provides loving care for these survivors at our
**Dixieland Animal Care
and Evacuation Center.***

We are raising urgently needed funds for their ongoing care and for sanctuary construction projects, and we are seeking loving homes for these special needs pets.
