

Only half of our parishes have animal shelters, and many facilities that exist in rural areas provide extremely limited services. Incredibly, most have no budgets for vet care. We are regularly contacted by shelter workers trying to save injured and suffering animals, who would otherwise be euthanized. Two such dogs your donations helped save this month are JADA and AIDEN (pictured above and below). Both needed leg surgeries to fix broken bones. We were happy to make it possible for them to get needed care and find loving families.

60 Feral Cats Altered at One Recent Clinic

Here is what we like to see: row after row of cat traps lined up, with feral kitties awaiting spay/neuter surgeries. We were happy to sponsor the clinic this month. Our goal is to alter 100 additional cats in the area soon. *Special thanks to Teri Schwarz and Aileen DiPascal for their generous support of this project.*

PUPPY PILE UP: Some little ones you helped us rescue this month.

LAFAYETTE: When a volunteer feeder found this group of unaltered cats this month, we provided funds for needed traps and spay/neuter.

RESCUED! We were delighted to help save Rosco this month. Here he is devouring his first bowl of food after his rescue.

Extra special thanks go out to Judy Newman, for her extraordinarily generous gift last month. Judy started volunteering with us in the early nineties and has been a key supporter ever since. We appreciate you, Judy!
